

### ACCREDITATIONS

The school is a licensed private school by the Bulgarian Ministry of Education and Science and a Cambridge Primary and Cambridge International School. It is also recognized as an Edexcel centre of learning and is also a member of COBIS (Council of British International Schools).

### ACADEMIC

The academic programme, supported by a highly qualified pedagogical team and modern technology, provides our students with the best environment for gaining confidence and experience, cultural and social skills, an ability to apply the acquired knowledge and be successful in Bulgaria and around the world.

### SPORTS & CREATIVE CURRICULUM

Education cannot just consist of pure academics, our students need to develop their creative side, have fun, and relax their brains. We offer a stimulating creative arts programme which includes art, music and technologies. The lessons in physical education provide for their healthy and good physical state.

### EXTRACURRICULAR

After classes students participate in various activities and clubs. They can sign up for different sports such as football, tennis, swimming, basketball, fencing, yoga and others, or join a club in performing arts or fine arts, design and technology, debating.

### HEALTH, SAFETY & WELLBEING

We are committed to ensuring both the physical safety of our students, and caring for their emotional wellbeing. At the school we have qualified nurses and a psychologist. First aid provisions and dedicated medical rooms should a child fall ill or have an accident are provided.

### DINING OPTIONS

We dispose with own cooking facilities on site and we ensure a daily menu of several meals, desserts and fruits. The canteen is open all day and the students have four meals per day - early breakfast, snack, lunch and an afternoon snack. We make no compromise with the taste and the nutritious quality of the food.

### SCHOOL LIFE & COMMUNITY

The Student Council and the PTA are committed to the establishment of active communication between students, parents and school management. Both participate in the organisation of various social and charity activities and events and support the new students and parents to the school community.

### OPPORTUNITIES

We provide access to international education. Our students achieve results and acquire skills which will enable them to continue their education both in Bulgaria and abroad. We offer a comprehensive careers advice and university placement service and guide students towards their chosen career paths.

## St. George International School & Preschool

At St. George International School & Preschool, we believe that learning is a dynamic process of searching and understanding, full of curiosity and aspiration for development, love and support. The students are encouraged not just to memorize things, but to build their own sense of understanding and share it with others. Together, with mutual support and respect, we establish a community of shared ideas and values where our children advance and grow.

Our students not only learn the required course material, but also discover a love for learning, for learning's sake and are also given the opportunity to assume leadership roles, to work collaboratively and to take responsibility.

By considering the international experience and good practices but also by cherishing, keeping and nourishing the Bulgarian traditions and achievements we create an effective school community where children, teachers and parents learn from each other.

The programme includes subjects in compliance with the State Educational Standards of the Ministry of Education and Science of the Republic of Bulgaria, Cambridge Primary School, Cambridge International School, IGCSE and A-level.

**KINDERGARTEN**

Children learn through learning situations in English Language, Bulgarian Language, Math, Environment, Arts, Physical education, Music, Design and technologies and others. We put the foundations for building reading habits and fostering the love for books and learning.

**PRIMARY**

Our main focus is for all students up to the end of grade 4 to communicate freely and confidently in English and to have developed skills in Mathematics, Science and Bulgarian Language. We emphasize specifically on building a solid Math foundation.

We work on establishing time management skills and preparation for exams and competitions, searching and analyzing of information and reasserting reading habits.

**LOWER SECONDARY**

We focus on teaching and developing competencies in the fields of Math, Science, Literature and Grammar - both English and Bulgarian.

From grade 5 and up, it is compulsory to opt for an additional foreign language within the mandatory programme. Practical lessons for developing presentation skills are included in the programme for grades 5 and 6.

**UPPER SECONDARY**

The essential focus is on achieving excellent results in both State Maturity Exams and IGCSE and Cambridge International Advanced Level exams.

**Kindergarten**

Teaching and learning are implemented through communication in a foreign language learning environment

From nursery to pre-school the kindergarten aims at providing a happy, safe and supportive learning environment, where the children build the necessary skills for the next stage of their life - school.

We support each child in playing freely, creating, exploring and problem solving, and in developing skills for self-expression, concentration, critical observation, listening and comprehension, skills for learning and a love for learning.

This ensures a strong start for every child and supports child's growth.

**APPLY**

St. George International School & Preschool seeks to enrol students with high academic results who will contribute the academic programme applied at the School.

All children can be enrolled at St. George International School & Preschool regardless their race, religion, nationality, ethnicity and gender.

**VISIT THE SCHOOL**

At St. George International School & Preschool we believe that learning is a dynamic process, where students, teachers and parents share common values and vision for development. This is why the decision for an educational institution should be a result of an informed choice.

If the parents wish to arrange an on-site meeting, they have the opportunity to visit the School or the Kindergarten, to feel the atmosphere and discuss their queries.
